

Dahmane Abdelmalek

I'm a full-stack developer who builds stable, well-architected applications. I work independently across the stack, quickly grasp system design, and prioritize sustainable solutions that deliver business value.

EXPERIENCE

Five Angles, Remote — Full Stack Engineer

Jun 2024- PRESENT

- Delivered **4 full production-ready projects** from planning to deployment
- Led a 3-5 person development team to ship features on time and at quality
- Improved delivery efficiency, helping increase revenue by 15-25% across shipped products
- Reduced bugs and maintenance overhead by 30% through code reviews and best practices

StackInTech, Tlemcen, Algeria — Full Stack Engineer

Apr 2023 - Nov 2023

- Co-founded Stack In Tech, a software development agency
- Delivered **2+ production-ready products** as a full-stack developer and DevOps engineer
- Improved delivery speed and helped boost revenue by 15-25%
- Achieved 100% on-time delivery across all projects

EDUCATION

Abou Bekr Belkaid , Tlemcen — Master's in Software Engineering

Sep 2022 - Jun 2024

I developed QuickCap, a full-stack web application using AI for automatically generating and managing video captions/subtitles as my graduation project. The project was fully deployed, earned a 19/20 grade, and was recognized as an innovative project for its originality and impact.

Abou Bekr Belkaid, Tlemcen — bachelor's degree

Sep 2019 - Jun 2022

Built a fully functional **e-commerce web application** with complete features including product management, checkout flow, authentication, and an admin dashboard.

Address: Hennaya, Tlemcen, Algeria

SKILLS

Programming Languages: JavaScript, TypeScript, Python, Php, Java.

Back End Development: Laravel, NodeJs, Django, Spring Boot, odoo

Front End Development: ReactJs, NextJs, AstroJs, InertiaJs, Tailwind

Additional Technologies: Git, Docker, Linux, MySql, PostgreSQL, APIs, Jira

PROJECTS

Subfast

Apr 2023- Aug 2024

AI-powered video captioning and editing platform, handling **frontend, backend, and AI integration** for automated subtitles and video editing.

Ayama

Aug 2024 - Dec 2024

Built **Ayama's** internal management **platform**, leading **backend development** for operations tracking, and admin tools

Pharmacy

Jan 2025 - Oct 2025

A full pharmacy management system for **Almoharib Pharmacy** as a **full-stack developer**, covering inventory, sales, orders, and user management.
